**Subject:** General time frame  
**Attachments:** ROD verbiage and next steps

Kerwin – do you have a sense for the timeframe for the proponent to meet the 2 criteria below? (Ball park is fine – weeks, months, etc...)

#### 9.1.1 Submittal of Final MPO with ROD Requirements

The proponent will submit a signed, revised MPO that incorporates all of the requirements, design features, and mitigations outlined in this ROD that have been determined necessary to minimize adverse impacts on surface resources. Note that some of the Forest Service requirements include the submittal and approval of a series of plans that outline additional details for the operation under the selected action. The Forest Service will review all design, monitoring, and mitigation plans to ensure consistency with FEIS and ROD requirements, and to ensure they have been incorporated into the MPO prior to MPO approval.

#### 9.1.2 Financial Assurance (Reclamation Bond)

A reclamation bond is a guarantee of faithful performance with the terms and conditions outlined in the final MPO, including the requirements of the ROD. The bond amount is the agencies' estimated cost to complete site reclamation in the event that the operator cannot or will not perform the required reclamation.
